<b>Delegation</b>	<input checked="" type="checkbox"/> Financial <input checked="" type="checkbox"/> Human Resources <input type="checkbox"/> Not Applicable		
<b>Supervises</b>	Up to 10 employees		

**Position Purpose**

The Mallee CMA features some of the most ecologically and culturally significant wetland and floodplain complexes in the Murray-Darling Basin, including 7 SDL projects. An exciting opportunity exists for a motivated and passionate individual to contribute towards the environmental management of a suite of high priority wetlands within a large geographical region. The successful applicant will lead and support environmental water management projects across a region that is home to more than 1,600km of river assets and in excess of 900 wetlands. Further, the successful applicant will be responsible for managing two The Living Murray Icon Sites (the Hattah Lakes and the Lindsay-Mulcra-Wallpolla Icon Site) and will be central in negotiating ecologically beneficial weir pool manipulation outcomes for Victoria.

The role is responsible for prioritising and delivering water for the environment to high value wetlands and rivers across the region. The role manages a team responsible for identifying demand and competing for limited water resource allocation to deliver on the objectives of the Mallee Waterway Strategy, Indigenous Participation Plan and Regional Catchment Strategy.

The key to success is community and stakeholder consultation to gain support for resource allocation and partnering in site-based program delivery. This includes managing multimillion-dollar procurement and contract processes, project management, community engagement services, and outcome and team performance. The role contributes to achieving Mallee Catchment Management Authority Business Objective 1 to ensure that community is central to the planning, delivery and evaluation of natural resource management (NRM) and 2 to protect and enhance the region's natural, cultural and productive values.

## Official: Sensitive

### Responsibilities

- Ensure that the Mallee CMA's interests are understood and represented by relevant organisations/jurisdictions and as part of high-level environmental water operational forums (VEWH, CEWH, MDBA, NSW, SA, Parks Vic, Water Authorities etc.).
- Manage authority staff both employed and contracted with the objective of ensuring best management practice in human resources management, occupational health and safety, selection and recruitment, training and development, employee relations and performance management.
- Develop productive relations with, and liaise with, the Authority's stakeholders, the community, local government bodies, state and federal government authorities, water authorities, waterway management and water authority peak councils, and catchment and land protection boards.
- Promote the ideals of excellence and responsiveness in value added customer service as being the goal and responsibility of every employee.
- Initiate and develop contract documentation and probity processes; manage, monitor and review contracts outsourced; provide reports on progress and make recommendations on remedial action necessary to ensure effective completion of work within delegated authority.
- Provide technical ecological advice, project assistance, support and critical review of all reports developed within the Environmental Water team prior to broader distribution to DELWP, CEWH, VEWB or the MDBA.
- Lead a program of work to better position and progress the work of the Mallee CMA with regard to Weir pool Manipulation, E Water, TLM and SDL programs.
- Financial controls in place i.e. actuals are tracking against budgets, forecast budgets are being refined.
